Publisher: T.F.H. Publications

This volume presents valuable information about the origin and history, caring, breeding and showing of one of the desirable Tibetan breeds, the Lhasa Apso. The author discusses the people and kennels dedicated to the breeding and showing of the breed in English-speaking areas of the world. Because the condition of a Lhasa's coat can make or break him for showing, Miss Nicholas has included an entire chapter of expert advice about grooming the Lhasa properly. Over 185 photos in full color show how the "ideal" or perfect Lhasa Apso should look, and priceless photos in black and white document Lhasas that have made an impact in the past.
