Not sure if your dog might be an independent thinker? Then you may not have a dog from the terrier or hound group. :-) This would include a mixed breed dog with one or more of these in the mix.

Jane nicely brings in teachings from Jean Donaldson, Pamela Dennison, Karen Pryor and Morgan Spector, into a format that is easy to understand and implement with your 'pigs fly' dog(s). Jane explains why you want to start out with shaping rather than just lure your dog into a behavior. How to get your 'pigs fly' to do work with you rather than do their own thing.

Learn how to get those basic behaviors that may have made your 'pigs fly' dog a failure in class and help you both shine in the next dog class you both take.

Thought that agility looked like fun but you were afraid to trust your dog offleash?

Your dog is walking you rather than the other way around?

Get this book and have fun training your 'pigs fly' dog.
